

DFC Worship Team Goals

Format – Generally 4 songs for a service, but be ready with a 5th and also please work on an instrumental song that can be played during times of ministry etc. Please work on introducing a new song every now and again. This will help keep things fresh. (A goal is 2-4 new songs a year).

Challenge – Work on memorizing songs and getting away from sheet music. **Why?** This will greatly assist in helping the leader and teams connect with the congregation and free you up to better lead them into a worship experience. Please prayerfully consider working on this challenge. It will take time, but we promise it is very doable.

Practice – Please prioritize practicing once before Sunday morning. Then use Sunday morning to refresh and tighten up anything that needs addressed. Also please make the effort to be done practicing on Sunday mornings by 9:50am. Also make the effort to be onstage by the end of the countdown.

Take Lessons – Please take advantage of the free lessons being provided to you. Drums, acoustic, and vocal lessons have been paid for you by the church. Please take advantage of these opportunities. Call or email Jesse Sprinkle to schedule. Additionally, there are a plethora of free resources on YouTube. Help is out there; you have to go get it!

Annual DFC Worship CD compilation – It is our goal to record and produce an annual DFC worship compilation to give out freely to the congregation and those we know. The concept is to have 2-3 songs from every team.

Participate in Worship team meetings. – We will be scheduling quarterly worship team meetings; please make every effort to attend. These might be zoom or in person.

Engage in Ongoing Worship Team Tips, Tricks and Inspirations– You will be getting occasional articles, videos, and other opportunities for continuous improvement. Please take advantage of these.
